

2019 Candidate Application Form

for

Certification in Clinical Engineering

by the

Healthcare Technology Certification Commission

Program sponsored by the

American College of Clinical Engineering

Examination conducted by the

US Board of Examiners for Certification in Clinical Engineering *or*

the

Canadian Board of Examiners for Certification in Clinical

Engineering

5200 Butler Pike
Plymouth Meeting, PA 19462-1298

Phone: 610-567-1240
E-mail: certification@accenet.org

Phone: 610-567-1240

E-mail: certification@accenet.org

GENERAL INFORMATION

Clinical engineering certification is a three-step process: (1) application review by the US Board or Canadian Board of Examiners for Clinical Engineering Certification; (2) written examination; and (3) oral examination.

1. *APPLICATION REVIEW*

- ✓ Complete and submit the enclosed application forms, along with the \$475 application fee. The two-page machine readable form will be forwarded to Professional Testing Corporation.
- ✓ Contact your college or university to request that your official transcripts be forwarded directly to the Healthcare Technology Certification Commission (HTCC). Only official transcripts forwarded by the university will be accepted. If the most advanced degree is from an EAC/ABET accredited engineering program, transcripts related to this degree are required but transcripts for lesser degrees are not required. To confirm a school's accreditation, please contact www.abet.org. International degrees may be accepted if an equivalency from a third-party evaluation agency is provided. The third party evaluation agency shall be a member of the National Association of Credential Evaluation Services (NACES) www.NACES.org. Applicants shall request a document by document evaluation. Any expense incurred in establishing equivalency will be borne by the candidate. Your application will not be reviewed and evaluated until all transcripts are received.
- ✓ Make three copies of the Confidential Reference Statement, write your name on the cover sheet and first page, and distribute it to three references that can attest to your clinical engineering experience and abilities. References must not be other applicants actively seeking clinical engineering certification. References may include nurses, administrators, physicians, engineers and department managers. Selecting a variety of individual backgrounds would be preferable in choosing your references. Please include their titles, addresses and phone numbers,. Please urge your references to return the completed form *directly* to the Healthcare Technology Certification Commission (Commission) as quickly as possible. Your application will not be reviewed and evaluated until all references are received.

Once your official transcripts and all letters of reference have been received, your application packet will be forwarded to the US or Canadian Board of Examiners for Clinical Engineering Certification (Board) for review. Once the Board has reviewed and evaluated your application, you will receive a letter indicating whether the Board has found you eligible to sit for the written portion of the examination. If you are found ineligible you will receive a refund of the application fee, less a processing fee of \$125.00 USD, and you will receive an explanation concerning your ineligibility.

- ### 2. *WRITTEN EXAMINATION*– Applicants will be contacted for arrangements for taking the written examination after the Board deems the applicant eligible for examination. The written examination must be taken within 2 years of eligibility notice. Otherwise, the application is canceled and applicant is required to restart the application process.

The written examination consists of 150 multiple-choice questions which must be completed within 3 hours. The questions are based on the ACCE “body of knowledge” survey for clinical engineering practice.

Subject areas include: Technology Management; Service Delivery Management; Product Development, Testing, Evaluation, & Modification; IT / Telecom; Education of Others; Facilities Management; Risk Management / Safety; and General Management.

If the applicant does not pass the written examination, he or she is allowed, under the current application, one retest of the examination after a six-month waiting period, but before two years from date of the initial examination. The fee for retesting is \$175 USD.

3. *ORAL EXAMINATION*- Following successful completion of the written examination, the candidate is scheduled for an oral examination. The oral examination questions will be selected from the same content areas as the written examination. The exam consists of 3 questions to be delivered and answered in 1 ¾ hours. The oral examination must be taken within 3 years of the date of the initial notification of eligibility to enter the certification examination process.

If the applicant does not pass the oral examination, he or she is allowed, under the current application, one retest after a period of one year, but within three years of the date of the initial written examination. The retesting fee for the oral examination is \$150 USD.

If the applicant meets all the requirements for certification, the Board shall recommend certification by the Healthcare Technology Certification Commission.

4. Certification is valid for three years at which time it must be renewed.

Certification Renewal

To maintain your certification, you must meet the renewal requirements established by the US Board of Examiners for Clinical Engineering Certification. Requirements for maintaining certification include the payment of a renewal fee and the accumulation of at least fifteen points of continuing practice activities reported every three years. It is the responsibility of the certificant to keep track of their renewal date and notify ACCE/HTCC of any change in contact information (certification@accenet.org) Activities are recorded in a renewal application available from the Commission. The individual may claim points towards renewal for any activity in which they participate that maintains or enhances their clinical engineering skills. The point system is simple, flexible, and designed to be well within the reach of any actively practicing clinical engineer. Details are available in the renewal application form. Failure to meet or comply with the renewal requirements will result in the non-renewal of your certification. To regain certification, a new application must be submitted and the complete examination process repeated.

Nondiscrimination Policy

The certification program does not discriminate against any individual with respect to age, sex, color, race, religion, national origin, sexual preference, marital status, or disability.

Appeals Policy

The Appeals Committee of the United States Board of Examiners for Clinical Engineering Certification and the Healthcare Technology Certification Commission provides the appeal mechanism. It is the responsibility of the individual to initiate this process. Please submit your letter of appeal to the Secretariat at certification@accenet.org within 60 days of receiving written notification from the Commission regarding the status of your application review.

PART 1

Eligibility and Background

Darken only one choice for each question unless otherwise directed.

A. ELIGIBILITY OPTION:

(USA ONLY)

- Licensure in the United States as a Professional Engineer (PE)
3 or more years of clinical engineering practice

- BS or higher degree in engineering (EAC/ABET accredited program)
4 or more years of engineering practice, including 3 or more years of clinical engineering practice

- BSET degree in engineering technology (TAC/ABET accredited program)
8 or more years of engineering practice, including 3 or more years of clinical engineering practice

(CANADA ONLY)

- Licensure in Canada as a Professional Engineer (PE)
3 or more years of clinical engineering practice

B. PERCENT OF WORKING TIME CURRENTLY SPENT IN CLINICAL ENGINEERING:

- Less than 25% 25 to 75% More than 75%

C. YEARS OF EXPERIENCE IN CLINICAL ENGINEERING:

- Three
- Four to five
- Six to ten
- More than ten

D. WORK SETTING:

- Hospital
- Manufacturer
- Regulatory agency
- Educator
- Other (please specify) _____

E. EMPLOYER RECOGNIZES CERTIFICATION IN CLINICAL ENGINEERING IN POSITION DESCRIPTIONS, TITLES, PROMOTIONS AND COMPENSATION?

- No Yes

F. HIGHEST ACADEMIC LEVEL ATTAINED:

- Bachelor's Degree - science/engineering
- Master's Degree - science/engineering
- Master's Degree - other
- Doctorate Degree - science/engineering
- Doctorate Degree - other
- None

G. HAVE YOU TAKEN THIS EXAMINATION BEFORE?

- No Yes

If yes, indicate month, year, and name under which the examination was taken.

Date (month/year): _____

Name: _____

Optional Information

Note: Information related to race, age, and gender is optional and is requested only to assist in complying with general guidelines pertaining to equal opportunity. Such data will be used only in statistical summaries and in no way will affect your certification.

Race:

- African American Native American
- Asian White
- Hispanic No Response

Age Range:

- Under 25 40 to 49
- 25 to 29 50 to 59
- 30 to 39 60+

Gender:

- Male
- Female

| |
|------------|
| Office Use |
| 1 1 1 1 |
| 2 2 2 2 |
| 3 3 3 3 |
| 4 4 4 4 |
| 5 5 5 5 |
| 6 6 6 6 |
| 7 7 7 7 |
| 8 8 8 8 |
| 9 9 9 9 |
| 0 0 0 0 |

Candidate Signature

I have read the Handbook for Candidates and understand I am responsible for knowing its contents. I certify that the information given in this Application is in accordance with Handbook instructions and is accurate, correct, and complete.

PART II

APPLICATION FOR CERTIFICATION IN CLINICAL ENGINEERING

INSTRUCTIONS

This application will be treated as confidential. The application must be legible to be considered by the Board. The application is available at <http://accenet.org/CECertification/Pages/Default.aspx>

Review the current Candidate Handbook for Certification in Clinical Engineering prior to completing the application. Read the instructions for each application section carefully. Failure to provide complete information will result in delays in processing your application.

Include the \$ 475 USD application fee made payable to the “ACCE” with your application. Applications received without payment will not be processed. Payment made by credit cards are accepted online securely through PayPal®. Please visit our website at <http://accenet.org/CECertification/Pages/CCEApplicationFee.aspx> to submit payment.

Direct all correspondence and inquires to the address shown at the top of this page.

EMPLOYMENT HISTORY:

Begin with your current employer and account for each year of experience, which supports your application. Include start month and end month of employment. You may photocopy this page as necessary or use additional paper in this format. A resume or curriculum vitae containing this information is acceptable in lieu of this form. Please include any internships for consideration as work experience.

| Street Address: |
| City, State and Zip Code: |
| Title of your position: |
| Description of duties and responsibilities: |
| Does this employer recognize certification in clinical engineering in position descriptions, titles, promotions and compensation? Yes No |

OTHER

List professional registrations and certifications you now hold. Provide copies of all supporting documents.

1. _____
2. _____
3. _____

List professional or technical societies of which you are currently a member (including length of membership):

1. _____
2. _____
3. _____
4. _____

Note: If you feel that you would like to add other supporting statements, please limit your additional comments to two type written pages (double spaced). If you would like to attach additional supporting documents, please limit the attachments to five pages

REFERENCES:

Candidates shall request three (3) confidential references meeting all of the following criteria:

- **That the individual holds a position that allows them to attest to the applicant’s engineering or clinical engineering experience and abilities, e.g. nurses, administrators, physicians, engineers, and department managers. It is advisable that you discuss with your references your engineering and clinical engineering activities that are pertinent to this application.**
- **That each reference document is returned directly to the Secretariat by the confidential reference.**
- **That the individual providing the reference is not actively in the clinical engineering certification process, e.g. application is under consideration or found to be actively in the certification process, that reference will be rejected and replaced by the candidate with a suitable alternative reference.**
- **That the individual provides credible testament to the applicant’s work experience.**

Be sure to advise your references of the importance of responding promptly so your application can be processed. Note: Make three copies of the enclosed Confidential Reference Statement, write your name on the cover sheet and page 1, and distribute it to your three references.

1. _____

2. _____

3. _____

CERTIFICATION RENEWAL POLICY

To maintain your certification, you must meet the renewal requirements established by the US Board of Examiners for Clinical Engineering Certification (Board). Requirements for maintaining certification include the payment of a periodic renewal fee and the accumulation of at least fifteen points of continuing practice activities reported every three years. Activities are recorded in the renewal application supplied by the Board. You may claim points for any activity in which you participate that maintains or enhances your clinical engineering skills. The point system is simple, flexible, and designed to be well within the reach of any actively practicing clinical engineer. Failure to meet or comply with the renewal requirements will result in the revocation of your certification. To regain certification a new application must be submitted and the complete examination process repeated.

I certify that I have read the current Candidate Handbook for Certification in Clinical Engineering and this application form and all information I have entered on this application is correct. I understand that any misrepresentation may result in rejection of this application or the revocation of any certification issued as a result of this application. I understand that I must comply with the renewal policy to maintain my certification. I am also aware that any certification I may receive under this program will not constitute and shall not be construed as a license. I release from all liability the American College of Clinical Engineering (ACCE, the HTCC, the Board of Examiners and/or its agents, and I hereby authorize the HTCC, the Board of Examiners and/or its agents to make any inquires that are necessary in ascertaining my eligibility for certification.

CONFIDENTIAL REFERENCE STATEMENT – CLINICAL ENGINEERING

APPLICANT'S NAME: _____

You have been selected to provide a reference based on your working experience with the above-named individual who is applying to test for certification in Clinical Engineering. If you are currently applying for Certification in Clinical Engineering or are in the examination process, you are not eligible to be a reference to this applicant. Please notify the applicant of this fact so that he/she may seek another reference in a timely manner.

The Board of Examiners for Clinical Engineering Certification will consider this reference statement along with other reference statements, educational background, and work experience in assessing whether the applicant is qualified to test for certification in Clinical Engineering at this time.

The Board of Examiners has provided the following definition of a Clinical Engineer:

“A Clinical Engineer is a professional who supports and advances patient care by applying engineering and managerial skills to healthcare technology.”

To avoid delays in the application process, please return this form including cover page as soon as possible, directly to the Healthcare Technology Certification Commission secretariat by email at certification@accenet.org. Please *do not* return this form to the applicant.

Thank you for your time and assistance.

Sincerely,

Stephen L. Grimes, FACCE FAIMBE FHIMSS
Healthcare Technology Certification Commission Chair
