## ACCE Alert: Notice of Cancellation

Dear ACCE Members, Symposium Speakers, and Sponsors,

As many of you are aware, HIMSS has cancelled the 2020 HIMSS Global Health Conference & Expo in Orlando, FL. Given this recent development and aligning with recent reports from the WHO and CDC, ACCE will be canceling all its activities during the week of the conference. This includes the CE-IT Symposium on Monday, March 9, and the ACCE-HTA Event on Tuesday, March 10.

While we were looking forward to these events, the information sharing, and the networking possibilities; we are aligned with HIMSS in order to help “protect the health and safety of the global HIMSS and ACCE community, employees and local residents, as well as for the healthcare providers tasked with keeping our U.S. and global communities healthy”.

ACCE will provide more information as it becomes available.

Thank you,

Ilir Kullolli  
ACCE President
